

27 June 2012

To whom it may concern,

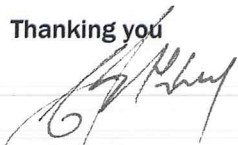

**JOINT VENTURE ELECTRONIC SERVICES (PTY) LTD**

This letter serves to confirm that our company engaged with Joint Venture Electronic Services, for the installation of bay detection at Arbour Square, Braamfontein a site under our management.

I can confirm that the equipment is fully functional, accurate and well installed, the service provided is of the highest quality and we have no reason to suggest that Joint Ventures would not be capable of doing more advanced installations.

I trust that this meets with your approval and welcome you to come view the equipment in use at any time.

Thanking you

Clinton Alley

Director - Business Development
